The Repair and Leasing Scheme (RLS)*

The focus of the scheme is to deliver housing while maximising the use of existing built housing stock in the city.

Dublin City Council is offering funding to owners with vacant housing units that require refurbishment works up to a maximum cost of €40,000** inclusive of VAT. The City Council will pay for the repair works in return for the property being made available for social housing through a lease for a period of at least 5 years.

Refurbishment works carried out must bring the property up to the standards for Rented Housing Regulations. The capital investment cost required to refurbish the property is offset against the agreed future rental payments. Rental payments are agreed at 80% of market related rent for a house and 85% for an apartment where Dublin City Council take on the landlord responsibilities. If you wish to take on the role of the landlord, rental income is paid at 92% of current market related rent. The scheme provides for regular rent reviews.

***€50,000 inclusive of VAT if the property was previously a bedsit type dwelling.*

The Benefits of The Repair and Leasing Scheme:

- Guaranteed Rental Income
- No management of tenants where a Direct Lease Arrangement has been chosen
- No rent or arrears collections
- No maintenance of the residential property after the first six months of the lease if a Direct Lease Arrangement has been chosen
- No advertising or administration fees
