COASTWATCH SURVEY 2014

15th Sept - 15th Oct.

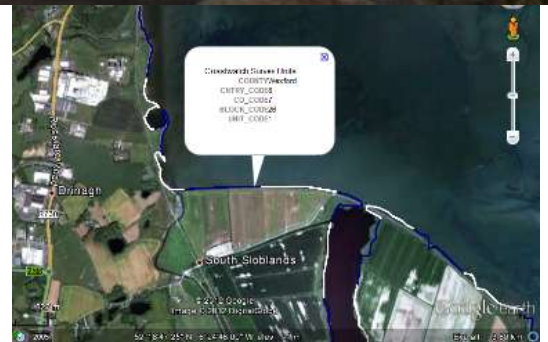

- Register the area you want to survey using online booking form.
- Request or register for training sessions
- Book test kits

More information and to download materials go to:

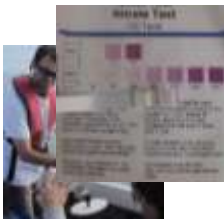

www.coastwatch.org

WATER FOCUS

- **FREE NITRATE INFLOW TESTS**
- **WATER TRANSPARENCY & COLOUR**

Shore changes, special species ID and location using your phone, as autumn weather and spring tides bring deeper water sea life to the tide mark. Record **problems like invasive species, litter, and infill** so that they get addressed and much more

Surveyors, regional coordinators and Coastwatch core team contribute time and expertise gratis in this citizen science project. Thank you to the Department of Environment, Community and Local Government Water Section for supporting the survey.

Further information, www.coastwatch.org or email survey@coastwatch.org
