

## **Home Grants - Housing Aid for Older People**

As of **Monday April 2<sup>nd</sup>** the Home Grants Section will no longer be providing grants for the replacement of boilers due to the reduction in human and financial resources. The works covered by the scheme now include re-roofing, re-wiring and central heating (where none exists). Our priority must always be the Housing Adaptation Grant for People with a Disability applications and we will continue to review the scheme as the year progresses.

The revised application forms are available on the Dublin City website or by contacting the **Home Grants Section on 2222195**.

Any applications received after 2nd April 2012 will be returned to the applicants with a letter of explanation.
