The Community Foundation for Ireland - Covid-19 Response Fund

Communities and local groups are being invited to apply for grants which can help them ‘Recover Better’ as the country emerges from the COVID-19 pandemic.

The Community Foundation for Ireland has re-opened its COVID-19 Recovery Fund in response to research which shows that voluntary, community and charitable groups are struggling to meet demand for lifeline supports and services.

According to the Charities Regulator, 74% of charities reported a severe impact on their organisation’s income for 2020. The Wheel, the national association of community and voluntary organisations, charities and social enterprises, has published that 82% of charities are very concerned about whether they will have sufficient funds to provide their services in 2021.

The Community Foundation, which is providing the support from private donations, says its aim is to ensure Ireland recovers better than the pre-pandemic status quo. To achieve this ambitious goal there are two areas which have been identified as needing immediate support:

- Community Recovery and Resilience: Overcoming Isolation
- Sector Recovery and Resilience: Building Capacity

A total of €580,000 is being made available.

Overcoming Isolation

Isolation and the impact on health and wellbeing is affecting people of all ages. Through this funding we will support social prescribing initiatives in outdoor spaces and online. This will encourage peer support, a sense of community and improved mental wellbeing. Communities and organisations working with them have especially highlighted the need to develop outdoor opportunities for those they work with, as they grapple with living with COVID-19.

Grants of up to €3,000 will be available for grassroots and community development organisations for projects that encourage communities to overcome the isolation of the last year and a half. The key outcome of your project should be building a sense community that encourages socialising, peer support and improved wellbeing.

Building Capacity
In order to recover stronger from the uncertainty of the pandemic, space to think, plan and strategize is crucial. Furthermore, with the uncertainty and even greater marginalisation created by the pandemic, research and advocacy is essential for creating a more equal and resilient society. This open grant round aims to build capacity, strength and resilience within the sector to build a more equal and empowered society.

Grants of up to €20,000 are available to organisations that have been deeply affected by the pandemic.

Energy for Generations Fund

As a leading Irish organisation with deep roots in the community dating back to 1927, we are committed to playing a role in addressing some of the key social issues facing Ireland today.

Corporate Responsibility (CR) is at the heart of this vision. Through our Energy for Generations Fund, we have three main pillars of focus:

- Suicide
- Homelessness
- Education Access and Support

Criteria

ESB's Energy for Generations Fund sees €1m per year disbursed through a quarterly fund to charities working in the areas of suicide prevention, homelessness and education access and support.

ESB has been supporting initiatives in the areas of suicide prevention and homelessness since 2005. The Energy for Generations Fund introduced a new focus on education in 2014, which recognises the need for educational supports at all levels to ensure that Ireland has the skills it needs to compete effectively.

Aim of the Energy for Generations Fund

Our aim with the Energy for Generations Fund is to maximise the impact of our investment by taking a more strategic approach to effect change. Funding is only part of the jigsaw – we also want to leverage the skills and knowledge we have within the company to bring about more sustainable and positive outcomes.

The guideline application amount is c. €15,000. This is neither a minimum nor a maximum, rather an indication of the scale of the resources available. Average funding awards in recent years have been c. €8,000 - €12,000.

Support for Staff Volunteering

The Energy for Generations Fund provides support to ESB staff who volunteer within their own communities. Staff who volunteer at least 20 hours of their own time per year will be invited to apply for funding of up to €250 for their chosen registered charity.
Many of our staff are involved in volunteering activities in their spare time, but we have never had any formal structure to support or encourage this in the past. Through this funding, our aim is to demonstrate our support for the work our staff do within their own.

**How Does the Fund Work?**

Charities working in the areas of suicide prevention, homelessness and education access and support can apply to the Fund for project specific funding.

Every quarter ESB allocates an amount from the Fund for disbursement. The amount may vary because of the volume of applications received or seasonal considerations - wintertime and Christmas may require more funding than summer.

Applications submitted during each quarter are appraised at the end of the quarter and funding allocated accordingly.

Awareness Raising Initiatives for Social Enterprise (ARISE) Scheme 2021

Developing and promoting a wide understanding of social enterprise is a key priority of the National Social Enterprise Policy for Ireland 2019-2022, and the success of the Policy depends in large part on the success in communicating the message about what Social Enterprises are, with the public, amongst social enterprises and other businesses, and across the civil and public service.

Working in partnership with social enterprise stakeholders, DRCD has developed an Awareness Strategy for social enterprise in Ireland. Its main aims are to:

Provide a common approach to the communications and language around social enterprise.

Foster a common understanding of the value of social enterprise.

Collectively empower social enterprises to have a voice and a role in raising awareness.

Dormant Accounts Funded ‘Awareness Raising Initiatives for Social Enterprise’ (ARISE) Scheme

The purpose of the Awareness Raising Initiative for Social Enterprise will be to provide funding to social enterprises and their support and network organisations to carry out awareness raising initiatives that will increase awareness of social enterprises and their potential, in line with the Awareness Raising Strategy. Funding for this scheme will be provided from the Dormant Accounts Fund.

The scheme is inviting applications under two strands:

Strand One will be aimed at individual social enterprises. It is envisaged that they will tell their story and highlight how their social enterprise is improving people’s lives.

Strand Two will be aimed at Social Enterprise Network and Support organisations to deliver more general or sectoral messages on what social enterprises are, and their potential to deliver sustainable and inclusive development and recovery.

Projects under both strands will be required to be in line with the key messages of the Social Enterprise Awareness Raising Strategy. The Key Messages are shown in the table below. Organisations seeking funding under this scheme will need to clearly show how these key messages will be incorporated into their awareness campaigns.
**Key Messages Table**

What is a social enterprise?

A social enterprise is a business that works primarily to improve the lives of people. The business of social enterprise is social good.

Social enterprise is a business that operates to meet a social need. Social enterprises generate profits that are reinvested, rather than distributed among shareholders, as in the case of most businesses.

Social enterprises operate in all areas of Ireland’s social and economic life, trading in goods and services, and re-investing any profit into delivering their mission in communities.

Social enterprises use a ‘business-plus’ model, which emphasises social need and the re-investment of profit into their core mission.

Social enterprise operates like any other business in that it produces goods and services for which the customer pays. The defining difference is that it invests all profits back into the business it runs.

Social enterprises sustain jobs and communities all over Ireland. Social enterprises are professionally run enterprises, willing and able to deliver on a range of social and economic requirements.

They are entrepreneurial, innovative and impactful. They improve the lives of people and are established to address significant societal challenges.

Many social enterprises work with government and with local authorities in the delivery of services, across sectors such as health; wellbeing and social services.

What benefits does social enterprise bring?

Social enterprise is a growing and dynamic part of Irish social and economic life. There is space for new ideas and further engagement with all those with an interest in

Why should we find out more about social enterprise?

Under Strand 1 of the scheme only social enterprises, as defined in the National Social Enterprise Policy (see below), may apply under this scheme. All applicants will be checked and
verified to ensure they meet the definition. Applicants who do not meet this definition will not be considered.

A Social Enterprise is an enterprise whose objective is to achieve a social, societal or environmental impact, rather than maximising profit for its owners or shareholders.

It pursues its objectives by trading on an ongoing basis through the provision of goods and/or services, and by reinvesting surpluses into achieving social objectives.

It is governed in a fully accountable and transparent manner and is independent of the public sector. If dissolved, it should transfer its assets to another organisation with a similar mission.

National Social Enterprise Policy for Ireland 2019-2022

Under Strand 2 of the scheme organisations with a large reach (i.e. Regional or National) may apply. This will include, but is not limited to, support organisations for social enterprises and social enterprise networks.

Funding Allocation

Amounts approved to social enterprises will be subject to the total number of applications approved and the overall budget available (€500,000).

Under Strand One of the initiative, grants of up to €10,000 may be provided to social enterprises to design and implement their awareness raising initiatives/campaigns.

Under Strand Two of the initiative, grants of up to €50,000 may be provided to Social Enterprise Networks or Support organisations with a National/Regional remit to design and implement their awareness raising initiatives/campaigns.

Projects or events which are already planned or underway will not be supported by this scheme.

Eligible Costs

Under this scheme, grants will be provided to social enterprises towards projects that will raise the profile of social enterprise. Costs incurred under Strand 1 and Strand 2 for the creation of awareness raising initiatives in line with the Awareness Raising Strategy are allowed. Costs associated with the holding of an event are allowed.

The scheme does not provide funding for operating costs (e.g. the employment of staff, electricity costs, heating costs, etc.) or administrative costs.
Only expenditure incurred from the date of notification of a successful outcome will be eligible subject to all contract conditions being met.

The Community Foundation for Ireland - Older Persons’ Grant

The Older Persons’ Fund is a long-term philanthropic fund which promotes the civic engagement of older people, as a means of working towards making a difference in their communities.

The Fund builds on our long-standing engagement and commitment to supporting older people in their communities. We have invested over €1m in this area to date.

This year we have the following two categories that you may apply for a grant under:

- Inclusion of older people in active citizenship roles – Grants of up to €7,500 will be available to organisations working towards inclusion of older people in active citizenship roles
- Supporting older peoples’ voices at local & national level – Grants of up to €7,500 will available to organisations working towards supporting older peoples’ engagement in advocacy.

Why The Older Persons’ Fund?

It is estimated that by 2041, people aged over 65 will account for 22% of the population in Ireland, compared to some 19% today.

The Older Persons’ Fund seeks to realise the benefits of this changing demographic by building a long-term sustainable fund to support older people’s voices at a local and national level and their capacity to engage fully in all strands of society. In line with this goal, the mission of The Older Persons’ Fund will be to support strategic community based and national activities promoting Older People as Active Citizens and Advocates – including influencing policy, community decision-making processes, leadership, negotiation and other ways to give greater “voice” to Older People.

The Older Persons’ Fund has been set up with an initial investment of €3m provided by us (€1m) and The Atlantic Philanthropies (€2m). We are targeting an additional €1m to be raised and allocated to the fund between now and 2018, as well as on-going fund development in the longer term.

The Fund will initially support projects in the area of civic engagement which:

- Support older people’s ‘voice’ at a local and national level, and their capacity to engage in all strands of society.
- Promote older people’s participation as active citizens in their communities and their inclusion in civic life.

In the longer term, the Fund will also support activities that address older people’s social exclusion, for example loneliness and isolation, where increased civic participation is a planned outcome.

Mohamed bin Zayed - Species Conservation Fund

The Fund will consider grants for the conservation of any threatened or poorly known animal, plant or fungus species.

Its focus is global and eligibility for grants will extend to all plant, animal and fungi species conservation efforts, without discrimination on the basis of region or selected species.

The Fund intends to be as flexible and accommodating as possible when reviewing applications, and to take into account as many different factors as is reasonable when assessing the merit of a suggested project. To support this and to try to streamline the application process, the review process is kept comparatively simple.

Grants will be awarded based on their ability to meet criteria pre-determined by the Species Fund, and are for maximum of $25,000 for each project.

Criteria

Conservation status: The Fund was established to support species conservation work, and so if your project is not about an endangered species it is probably not worth your while submitting an application.

The Fund will use the IUCN Redlist (www.iucnredlist.org) as the primary guide to the conservation status of a given species, although documented variations for sub-species, distinct populations and sub-populations will be taken into account. For those species not assessed through the IUCN Redlist we welcome other methods of assessment and the submission of quantitative data to confirm a species status. Generally, the Fund gives priority to those species facing a high threat of extinction (with an emphasis on Endangered and Critically Endangered species), as well as those which are listed as Data Deficient or unlisted but are suspected as highly threatened. Please ensure that the conservation status mentioned in the application is correct and cross-referenced to a website or publication. It might be of use to consult with the relevant IUCN/SSC Specialist Group if you are in doubt or would like some guidance.

Please note that applications with clearly incorrect conservation status and no justification will NOT be considered for funding.

Content: Text provided in an application should be kept concise and clear, with clearly stated quantitative goals, aims and methods. When writing an application, please bear in mind that there is only so much text which the Advisory Board and the Fund’s board of directors are
capable of reading. Priority will be given to those projects that support the professional development of young conservationists.

**In situ conservation:** Generally, the Fund is primarily interested in providing support to in situ conservation work in the field (such as survey work and data gathering, direct action, recovery management, training and the like), focusing on the species in its natural habitat. However, the importance of ex situ work (genetic analysis, workshops, ex situ populations etc) is also recognised, and so a few grants may be given to projects which focus on ex situ conservation work in certain circumstances.

**Core costs:** The Fund will not contribute to the core running costs of an organisation or administrative overheads, and yet does recognise that sometimes support salaries, stipends, per diems and project related living costs can be a vital part of in situ conservation work.

**Species:** Generally, the Fund would prefer to support projects which focus on a single species, but it also recognises that in some geographic and taxonomic circumstances it makes more sense to group a number of species.

**Grants for continuation:** The Fund is happy to provide continuation support for a project which had previously been supported, which is now completed and for which the Fund has received all required reporting by the time of the respective submission deadline.

**External review:** In some cases the Advisory Board and/or the Fund's board of directors may ask for an application to be passed on for additional review, which may add to the response time.

**How to Apply**

Visit the Fund website to learn more before submitting an online application.

Culture Ireland Grants

Culture Ireland promotes Irish arts worldwide. We create and support opportunities for Irish artists and companies to present and promote their work at strategic international festivals and venues.

Purpose of Awards

Culture Ireland offers support to Irish professional artists, arts organisations and international presenters to present work by Irish artists at significant international venues and festivals.

In supporting an event, Culture Ireland offers grant funding towards costs which relate directly to the international presentation of the event, i.e. travel and travel related costs such as transport, accommodation and subsistence.

Culture Ireland considers applications for all forms of the arts as defined in the Arts Act 2003: “arts means any creative or interpretative expression (whether traditional or contemporary) in whatever form, and includes, in particular, visual arts, theatre, literature, music, dance, opera, film, circus and architecture, and includes any medium when used for those purposes”.

Basic Eligibility Requirements:

- Application must be in respect of a Irish professional artist/s or arts organisation
- Application must be in respect of an art form defined under the Arts Act 2003
- Only international events are supported (i.e., outside the island of Ireland)
- The event must be accessible to an open public audience and fees must be payable to the artist/s or arts organisation
- Funding support is limited to travel and travel related costs
- Grants are only payable to the person/organisation named on the initial application

Applications deemed eligible are assessed in line with the following criteria:

- Artistic quality of work and track record of artist/s or arts organisation
- Financial and operational viability of the event (including fees and level of support from presenter/venue/other partners)
- Profile of international venue/festival
- Proven capacity of applicant, artist/s or arts organisation to present work internationally
• Wider promotional and media impact

What does Culture Ireland mean by artistic quality? Artistic quality can be defined as work that is ambitious, excellent and original, connects to audiences and has been presented nationally to critical acclaim. It should be noted that the assessment of the artistic quality of the proposed work is made using knowledge, experience and specialist advice.

Examples of eligible applications include:

• Theatre, circus and dance performances by professional companies
• Film-makers presenting films at key international film festivals
• Performances by professional or professionally-led musicians and ensembles
• Visual artists/galleries exhibiting at internationally recognised art fairs/galleries
• Readings by writers/poets in English or Irish or otherwise at international literary festivals

Please note that because of the competitive nature and context of each grant round, limited funding and a large number of applicants, eligibility and compliance with criteria for assessment alone does not guarantee that you will receive grant funding.

Examples of ineligible applications include:

• Events which have already taken place
• Research, opportunities, study or professional training
• Production Costs
• Residencies
• Bursaries
• Workshops/Conferences
• Amateur events
• Work by non-professional artists
• Events of a competitive nature.
