

Welcome to Ballymun Library

Visiting the library

A social story

When I come in the main door I will see doors for a Junior Library and an Adult Library.

A librarian will meet me at the junior library when I am on a library tour with my teacher.

I will see lots of books, some computers and study desks.

This is the Junior Library. There are books, tables and chairs. I can sit and read here.

There are also study desks so people can study and do their homework.

When I see people studying I should try to be quiet so the person studying can concentrate.

Sometimes the library can get noisy, but that is ok because I can always wear ear defenders.

Here is the Young Adult area. This section has books for older readers from 12 to 15 years old.

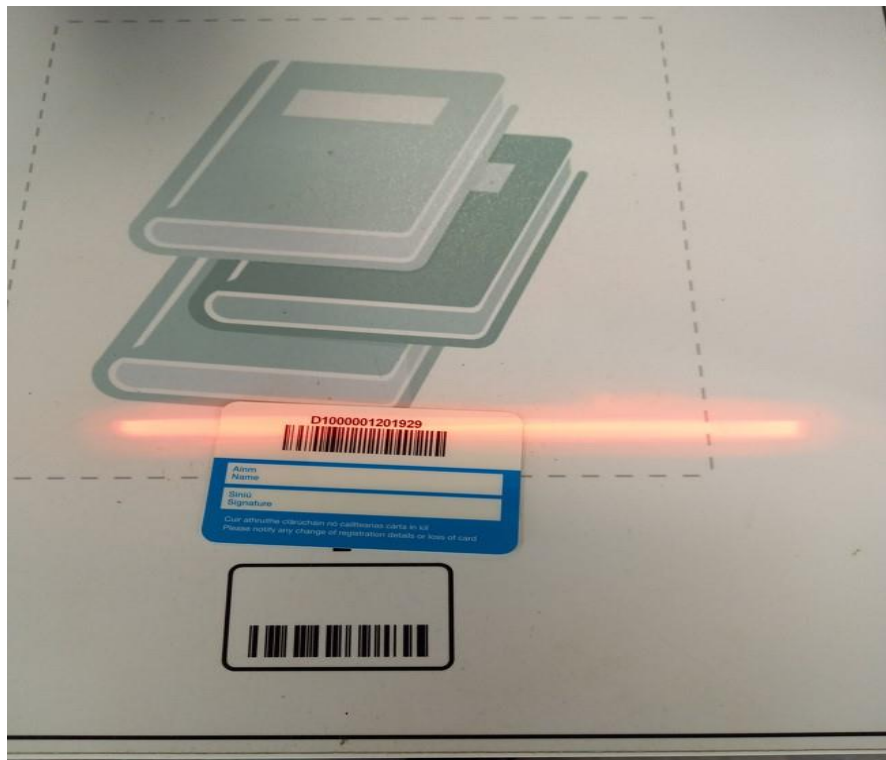

When I join the library, I will get a library card.

I can borrow 12 items for 3 weeks. I can borrow DVDs and computer games as well as books 😊

This is the RFID machine. I can scan my library card and check out my own books.

It will beep when it reads the card.

There is a toilet in the library for the public.

It is located in the Junior Library.

This is the desk in the Adult Library.

The librarians who work in the library are very helpful and friendly. They will help me find some books to take home.

Thank you for visiting Ballymun Library.
We hope you enjoyed your visit. Please
come again.
