on the pitch  
redo playgrounds

## 1. Big problems

The water is always dark, murky and murky litter has driven away wildlife. I used to see ducks there but now that litter has increased so much that wildlife has faded away.

## 2. Stuff I like about the River Santry

I would love to see foxes, squillers, birds, frogs, ducks. And I want it safe for animals.

## 3. Big chances

Get involved for picking up litter. No cutting the grass for pollinating but I don't think there should be too much non wildlife stuff like playgrounds and waterpark.

# YOUR FEEDBACK

1. Big problems
2. Stuff I like about the River Santry
3. Big chances

The water is dark and murky. I think there is a lot of litter in the river.

I think that it is a good place to play football.

Bring back picker pals and check the rivers.

There is also a heron there!
