The Arts Council - Touring of Work Scheme

The Arts Council is the national agency for funding, developing and promoting the arts in Ireland. The Council recognises that the arts have a central and distinctive contribution to make to society.

Applications are invited for proposals seeking funding to support the touring of work across all artform and arts practice areas for tours taking place in the Republic of Ireland starting from January to December 2024.

Please note, the Arts Council is currently reviewing the way we fund touring and the parameters of this award are set to change. We consider change to be an integral part of our role as the development agency for the arts in Ireland. Changes to our decision-making and policy-making are informed by data provided by the sector.

Recent changes we have made to the scheme:

- We have aligned the objectives and priorities of this award more closely to the Arts Council strategy Making Great Art Work;
- Applications for tours planned throughout 2024 will be accepted;
- We have standardised the mandatory supporting material required for all applicants – some exceptions remain, so please read this guidance carefully;
- We have added a new application artform area (MDA / Arts Participation / YPCE). Applicants with a particular focus on Arts Participation or YPCE should select this as their primary artform area;
- We have aligned our assessment and decision-making processes to follow Arts Council peerpanel procedure.

The Arts Council - Late-Night Events (Pilot Programme)

This project is a partnership between the Department of Tourism, Culture, Arts, Gaeltacht, Sports and Media and the Arts Council.

Objectives and priorities of the award

The Late-Night Events (Pilot Programme) 2023 intends to further extend and diversify the offering for late-night activity and provide opportunities for new and exciting work, encouraging new audiences into existing cultural facilities. It will also seek to identify and address any challenges venues may associate with staying open late.

The pilot will:

- Encourage new partnerships between local authorities, arts centres, festivals, producers, other commercial and non-commercial venues and artists, particularly those operating later into the evening
- Support innovative and additional approaches to night-time arts activities
- Enhance, diversify and expand audience engagement
- Seek to identify and overcome challenges to venues and cultural spaces associated with opening late
- Advocate for a place-based approach that will build on the existing arts sector in each town or city
- Support any additional NTE interventions that may be in place (i.e. pilot NTE advisors)
- Support events promoted at reasonable cost to audiences
- Support events that pay artists and creative workers fairly.

Examples of possible models:

- An arts centre establishing a series of events in conjunction with local creatives/event organisers where an earlier event in the evening in the arts centre is linked to a later event in another venue. The pilot runs for a set number of weeks.
- A gallery promoting a series of visual arts/music events from 23:00 onwards
- An arts centre providing admin and overhead support to a local promoter staging late-night music events in formal or informal venues

- A series of electronic/folk/contemporary arts events in different venues in conjunction with the NTE adviser and local promoters.

Who can apply?

The lead partner must be an arts centre that has been in receipt of Arts Council Art Centre Funding or Arts Grant Funding (arts centres) within the last five years. Events may or may not take place in the arts centres: the arts centre may be centrally involved or simply act as the administrator for the pilot.

Partners might include local promoters, local-authority night-time advisers, and operators of pop-up venues, other arts centres, other commercial and non-commercial venues festivals, producers and artists.

What may you apply for?

The costs of promoting and staging late-night events in any artform (late-night events are those programmed after c. 22:00 and continue after midnight).

The application requires a full listing of costs and income, which will be assessed for feasibility, affordability for audiences, fair fees to artists and creative personnel, etc.

Up to €60,000 will be available for the lead arts centre for programming.

Sports Capital Programme

The SCEP is the government's primary vehicle for providing support to sports clubs and communities to develop sports infrastructure around the country.

Applicants for local projects can now apply for up to €200,000, increased from the previous maximum grant of €150,000. The maximum valid grant available for projects deemed to be of regional significance has been increased from €300,000 to €500,000.

In addition, this year's SCEP "Guide to Making an Application" has a focus on climate action and sustainability for the first time, supporting local clubs to take steps to reduce their energy consumption and applying for more efficient lighting.

For the first time in the history of the SCEP, projects will only be considered for grant support if access is guaranteed to men and women on equal terms. As one of the stated objectives of the Programme is to increase female participation, all applications for funding of women-only facilities will be deemed valid for consideration.

How much funding can an organisation apply for?

The maximum grant available for a local club/organisation project is €200,000. It is envisaged that this amount will only be allocated in exceptional circumstances. Maintenance equipment grants will be capped at €40,000 and equipment grants of over €70,000 will only be awarded in exceptional circumstances (such as to NGBs). The maximum grant available for regional projects is €500,000 (see guide to making an application for details of what are considered regional projects).

The Housing Agency - Research Support Programme

The Housing Agency is a government body that uses its expertise to solve problems and support the delivery of high quality, affordable homes and sustainable communities. It provides stakeholders with evidence-informed research, insights and data to help them respond to challenges in the housing system.

One of The Housing Agency's functions is to undertake and support independent research to help inform housing policy development and good practice. The Research Support Programme (RSP) has been an important part of this function. Since 2020 The Housing Agency has supported seventeen independent research projects and some recipients have gone on to secure funding from other sources. Previous successful projects are available on The Housing Agency website.

Research Focus - Sustainability

The Housing Agency's vision is 'to achieve an integrated housing system, meeting the nation's housing needs and promoting sustainable communities.' Following the successful [Housing Unlocked](#) exhibition at Trinity College Dublin, in collaboration with The Housing Agency and the Irish Architecture Foundation, the 2023 RSP will focus on sustainability, particularly innovation and expertise in the delivery of housing in towns and cities.

While the overarching theme is sustainability, research proposals should also demonstrate that they meet the objectives of affordability and/or social inclusion.

Sustainability Themes:

Sustainability, as viewed by the Housing Agency, has economic, social and environmental dimensions. Sustainable communities are places where people want to live and work now and in the future. They meet the needs of future and current residents, are sensitive to the environment, and contribute to high quality of life.

Proposals on the broad theme of sustainability and housing as defined above are invited. Some topics that may be considered (but are not limited to):

- Retrofitting
- Rightsizing
- Sustainable and innovative design (this can include concepts of gentle infill, smart growth, the liveable city, etc)
- Modern methods of construction
- Converting vacant commercial premises into housing

Nature of Support and Timeline

The grant funding can contribute to research activities including literature reviews, policy reviews, best practice guides, policy evaluation, and various primary and field research.

We envisage that successful applications will be awarded a maximum of €30,000 over a twelve-month period. Successful proposals will be awarded in late 2023 and research must be completed in 2024.

The Housing Agency is open to joint funding of research projects with partnership organisations and welcomes collaborative proposals which may involve

academics/professional researchers, housing practitioners working in the local authority, approved housing bodies, and NGOs.

How to Apply

Applications will be assessed in accordance with the scoring system outlined in the application form. Funding will be at the absolute discretion of the Housing Agency.

The Arts Council - Creative Production Supports

The Arts Council is the national agency for funding, developing and promoting the arts in Ireland. The Council recognises that the arts have a central and distinctive contribution to make to society.

This initiative is informed by key goals contained within the Arts Council strategy, [Making Great Art Work](#), and the Arts Council's current arts policies. Following a pilot programme, proposals are now sought that collaborate with the existing infrastructure to provide additional, arts-led production supports for independent arts sector, particularly those in receipt of Arts Council Project Awards and Arts Grant Funding.

The skills needed to create excellent arts events and activities are many and varied and, while underpinned by a creative vision, achieving excellence requires sustained, collaborative support. Successful applicants will be asked to collaborate with the Arts Council in creating an infrastructure that optimises existing resources and promotes best-practice in the development, production and dissemination of artists' work and practice.

Applications will be considered from professional artists¹ or organisations who can demonstrate a proven track record in creative production, and who can demonstrate partnerships of expertise with at least one organisation in receipt of Arts Council Strategic, Partnership or Arts Centre Funding and with a significant track record in the production and presentation.

Time frame

The Arts Council expects to inform applicants of decisions by November 2023.

What are the objectives and priorities of the award?

For the purposes of this funding programme, "creative production" is described as a process that turns artistic ideas into reality. It supports artist development alongside resourcing, presentation and public engagement needs and opportunities.

The objective of the initiative is to provide high-quality, art-led production supports for the independent arts sector for up to two years, developing an articulation of best practice and optimising existing resources and networks in the development, production, co-production, presentation, co-presentation and touring.

For example, a proposal could consist of:

- For the purpose of this scheme, a professional artist is defined as any individual who works as a professional artist in a creative capacity in any arts context, and is recognised as such by their peers. Such applicants may be required to form a company (CLG) if awarded under this scheme.
- More opportunities within the independent sector to be supported to develop high level production skills

- Provision of excellent leadership, mentorship, training and developmental opportunities for independent artists and producers Support and/or engagement of producers who support the work of multiple artists and art-makers
- The provision of, or access to, development opportunities that support artistic quality – e.g. expert dramaturgical supports; support to produce high-quality work for children or young audiences; effective socially engaged or participatory arts practice; new production models, resource hub, regional supports in the visual arts; skills to embed effective approaches to coproduction; access to peer-review systems
- The provision of, or access to, practical resources – administrative and infrastructural e.g. enable artists/producers to make use of underutilised technical equipment and other resources held by arts centres, galleries and companies, such as dance floors, lighting and sound equipment, SFX (e.g. smoke machines) and AV (e.g. projectors, screens) available to borrow or hire
- Administrative and management resources to assist professional artists in the development of their practice and production and dissemination of work
- Assistance and resources to enable professional artists to understand publicengagement needs and opportunities, and the implications for creative production, expertise or access to expertise in strategic planning and sustainability
- Developing major, new co-production or opportunities for the independent sector to present work in partnership with networks of funded arts organisations, festivals and other platforms
- Understanding of the international context and access to international opportunities.

Priority will be given to proposals based on:

- Their potential for a sustained impact on the arts sector
- Their potential for sustained change and impact on the professional development of the artists involved
- Their potential to support early-career artists and producers Their potential to support greater equity of opportunity in creative production – e.g. addressing spatial inequalities in accessing creative production supports; social or economic profile or artists involved
- Approaches that encourage resource sharing across artforms and arts disciplines.

Eligibility

Creative Production Supports is open to:

- Individuals or collaborative entities (if two or more people want to make a joint application, one of them must act as the named applicant)
- Organisations, including companies limited by guarantee (CLG), designated activity companies (DAC), partnerships, etc., not in receipt of Arts Council Strategic, Partnership or Arts Centre Funding.
- Note: organisations in receipt of Strategic, Partnership or Arts Centre Funding may not be the lead applicant. However, to be eligible, applications under this programme must be supported by at least one organisation in receipt of Arts Council Strategic, Partnership or Arts Centre Funding.

To be eligible to apply, you must be:

- Resident in the Republic of Ireland. We may consider your application if you are based outside the Republic of Ireland. However, your application would have to convince us that your proposal would benefit the arts in the Republic of Ireland.
- Professional practising artists or practitioners. Even though you might not earn income continuously or exclusively from your arts practices, you must identify yourselves and be recognised by your peers as professional practising artists.

EYF Grants - Pilot Activity Grant

The European Youth Foundation (EYF) is a fund established in 1972 by the Council of Europe to provide financial support for European youth activities. Its purpose is to encourage co-operation among young people in Europe by providing financial support to such European youth activities which serve the promotion of peace, understanding and co-operation in a spirit of respect for the Council of Europe's fundamental values such as human rights, democracy, tolerance and solidarity.

The aim of pilot activity grants is to support actions which address young people's needs or challenges at a local level. The actions have a clear link to the local context and address the [focus themes](#) for pilot activities, as set out by the Joint Council on Youth.

These activities should be based on innovation or on replication of good practice, have a clear youth work dimension and be based on non-formal education principles. The link between the action and the envisioned impact on the community should be clearly thought out.

Format

Pilot Activities are flexible in their format and may utilise a range of approaches, such as training sessions, meetings with experts, local workshops, local actions, visits, campaigns, workshops in schools, festivals etc. An essential feature of a pilot activity is the educational element - the EYF supports education projects, using a [non-formal](#) approach.

The pilot activity can be:

- An awareness raising activity: participants are informed or educated about a topic or an issue, with the intention of influencing their attitudes, behaviours, solutions or responses in their local context. At the end of the activity they can say "I have learned this" or "I am aware of that".
- A Skills development activity: participants develop skills to address identified needs. At the end of the activity they can say: "I can do this" or "I have the ability to do that".
- Collaborative work: participants' skills and knowledge serve as a basis to build and develop an outcome (for example a campaign, guidelines, recommendations etc.) and at the end they can say "I have contributed to the development of this or that".

The maximum duration of a pilot activity project is 6 months.

If you are interested in reading some examples of EYF supported projects from the past years, you can visit the page "[Supported Projects](#)".

Be creative!

Criteria

Within the 2022-2023 priorities, the Joint Council on Youth has defined more specific [focus themes](#) for pilot activities to be supported by the European Youth Foundation in 2022.

When assessing applications for pilot activities, the EYF will concentrate on the following criteria:

Activities addressing challenges affecting young people at a local level. The EYF expects that you highlight a specific challenge or concern affecting young people at a local level based on evidenced needs. Applications will propose ways of tackling the issue, with a view to finding solutions and creating an impact in the community.

NGOs should be concrete and specific when introducing the local context, the situation of young people, and their challenges and needs. It should be clear how their proposed activity will help respond to these challenges at the local level.

The EYF expects that youth projects have an educational element and an approach based on non-formal education. Some [resources](#) on our website can give you some insight on how to integrate the [nonformal education](#) principles in your youth activities.

The EYF expects to clearly see a link to our focus themes and the Council of Europe's youth sector priorities. Your project needs to contribute to one of the priorities of the Council of Europe's youth sector, defined by the Joint Council on Youth (the central co-managed political body of the youth sector). Within the [current priorities](#), the Joint Council on Youth has defined more specific [focus themes](#) for pilot activities to be supported by the European Youth Foundation.

Projects supported by the European Youth Foundation must be organised by, with and for young people (between 15-30 years old). We will expect to see how young people are involved in the decision making at all stages of the project.

The EYF will pay particular attention to activities developed with local authorities or social services/workers, and projects involving young people trained in the European Youth Centres or presented by local NGOs supported by an international/European youth NGO.

Grant Amount

The maximum grant available for a Pilot Activity in 2022 is €15 000. The EYF can cover the all real costs of the activity up to this amount.

The EYF will initiate the payment of the first instalment – 80% of the grant awarded – 10 weeks before the start of your activity. However, it can take up to 3 weeks until the money arrives into your bank account. The remaining 20% will be paid upon receipt and approval of the final report (check the [Reporting](#) page).

The Programming Committee on Youth has decided to update the list of eligible costs in pilot activity grants, which now include certain specified administrative costs linked to the activity. It is now possible to

include certain administrative costs as eligible expenditure, as long as they are linked to the activity and for a maximum of 7% of the awarded grant. More specifically, it concerns the following costs:

Part of staff salaries, corresponding to their time dedicated to the project. Please note that expert or trainer fees have always been eligible and are not considered salaries;

Office rent, insurance, electricity, water and heating costs.

Administrative costs not mentioned above will continue to not be considered eligible.

Eligibility

[Regional networks of youth NGOs](#)

[National youth NGOs](#)

[Local youth NGOs](#)

Local actions may be carried out by international NGOs/networks as part of their work plan and in cooperation with local NGOs. However, only the NGOs mentioned above may submit a Pilot Activity application.

How to Apply

Applications can be submitted at any time during the year. However, there are several cut-off dates to allow for assessment, communication and decision by the EYF secretariat and the Programming Committee on Youth. With that in mind, the project must start at least 3 months after the cut-off date. For more information and updates on the cut-off dates, please pay regular attention to our page on [How to apply/Deadlines](#).

Culture Ireland Grants

Culture Ireland promotes Irish arts worldwide. We create and support opportunities for Irish artists and companies to present and promote their work at strategic international festivals and venues.

Purpose of Awards

Culture Ireland offers support to Irish professional artists, arts organisations and international presenters to present work by Irish artists at significant international venues and festivals.

In supporting an event, Culture Ireland offers grant funding towards costs which relate directly to the international presentation of the event, i.e. travel and travel related costs such as transport, accommodation and subsistence.

Culture Ireland considers applications for all forms of the arts as defined in the Arts Act 2003: “arts means any creative or interpretative expression (whether traditional or contemporary) in whatever form, and includes, in particular, visual arts, theatre, literature, music, dance, opera, film, circus and architecture, and includes any medium when used for those purposes”.

Basic Eligibility Requirements:

- Application must be in respect of a Irish professional artist/s or arts organisation
- Application must be in respect of an art form defined under the Arts Act 2003
- Only international events are supported (i.e., outside the island of Ireland)
- The event must be accessible to an open public audience and fees must be payable to the artist/s or arts organisation
- Funding support is limited to travel and travel related costs
- Grants are only payable to the person/organisation named on the initial application
- Applications deemed eligible are assessed in line with the following criteria:
- Artistic quality of work and track record of artist/s or arts organisation
- Financial and operational viability of the event (including fees and level of support from presenter/venue/other partners)
- Profile of international venue/festival
- Proven capacity of applicant, artist/s or arts organisation to present work internationally
- Wider promotional and media impact

Examples of eligible applications include:

- Theatre, circus and dance performances by professional companies
- Film-makers presenting films at key international film festivals
- Performances by professional or professionally-led musicians and ensembles
- Visual artists/galleries exhibiting at internationally recognised art fairs/galleries
- Readings by writers/poets in English or Irish or otherwise at international literary festivals

Please note that because of the competitive nature and context of each grant round, limited funding and a large number of applicants, eligibility and compliance with criteria for assessment alone does not guarantee that you will receive grant funding.

Examples of ineligible applications include:

- Events which have already taken place
- Research, opportunities, study or professional training
- Production Costs
- Residencies
- Bursaries
- Workshops/Conferences
- Amateur events
- Work by non-professional artists
- Events of a competitive nature.

PEACEPLUS

PEACEPLUS is a new funding programme designed to support peace and prosperity across Northern Ireland and the border counties of Ireland. PEACEPLUS is the successor programme to both PEACE IV and INTERREG VA.

Aims & Objectives

The overall objective of the PEACEPLUS Programme is to build peace and prosperity.

The programme aims to contribute towards a more prosperous and stable society in Northern Ireland and the Border Region of Ireland. PEACEPLUS focuses on supporting social, economic and regional stability, in particular by promoting cohesion between communities.

The programme will help to address long standing social and economic challenges which have, and continue to, impact on communities, particularly those in rural border areas as well as ongoing challenges that exist in urban settings. It will also recognise the impact of Covid-19 on society and the risks associated with the UK's exit from the EU.

What does it support?

PEACEPLUS aims to achieve its objectives by funding peace and reconciliation activities, and by funding activities that contribute to North/South cross-border economic and territorial development of the region.

The programme focuses on six key Investment Areas:

- Building Peaceful and Thriving Communities
- Delivering Economic Regeneration and Transformation
- Empowering and Investing in Our Young People
- Healthy and Inclusive Communities
- Supporting a Sustainable and Better Connected Future
- Building and Embedding Partnership and Collaboration

Each thematic area of the programme includes a strong community-led focus. PEACEPLUS will involve civil society at all levels, in relation to the development and implementation of actions and initiatives to address societal and community challenges.

Who can apply?

The Programme area includes Northern Ireland and the border counties of Ireland, namely Counties Cavan, Donegal, Leitrim, Louth, Monaghan and Sligo.

However, cross border collaboration is not strictly limited to the administrative borders of the Programme but has a flexible geography depending on the topic concerned. This is called a functional area and allows for organisations and institutions not based in the core Programme area to get involved in projects by linking with partners within the core Programme area.

Budget

A total of €1.1 billion from 2021-2027.

Patagonia Environmental Grants

Patagonia supports environmental organizations with bold, direct-action agendas and a commitment to long-term change.

We support innovative work that addresses the root causes of the environmental crisis and seeks to protect both the environment and affected communities. We focus on places where we've built connections through outdoor recreation and through our network of retail stores, nationally and internationally.

We believe local battles to protect a specific stand of forest, a stretch of river, an indigenous wild species or a community from a polluting refinery build public support and confront larger, more complex issues like climate change, biodiversity loss and environmental justice.

We encourage work that brings underrepresented communities to the forefront of the environmental movement and defend communities whose health and livelihoods are threatened by environmental exploitation.

We support multipronged campaigns that push for greater environmental protections and force the government to abide by its own laws.

We fund work that:

- builds an equitable, inclusive and diverse environmental movement
- confronts systemic bias, discrimination and injustice in environmental policy or outdoor spaces □
is action-oriented
- focuses on root causes
- has a clear strategy
- identifies specific goals and objectives that can be effectively measured to evaluate success
- builds public involvement and civic engagement
- works to build an inclusive and diverse environmental movement
- takes place within the following countries: Argentina, Australia, Austria, Belgium, Canada, Chile, Czechia, Denmark, France, Germany, **Ireland**, Italy, Japan, Korea, Luxembourg, The Netherlands, Norway, Spain, Sweden, Switzerland, the United Kingdom and the United States.

Patagonia believes that the most direct path to real change is through building grassroots momentum.

Our funding focuses on organizations that have or can create a strong base of support. Because we're a privately held company, we have the freedom to fund risk-taking, off-the-beaten-track groups, and that's where we believe our small grants are most effective.

We accept one proposal per group in a given fiscal year (May 1–April 30). Our typical grant size ranges between \$5,000 and \$15,000. Proposals are reviewed and grants decisions are made by an employee grants council in Europe.

There are three annual deadlines for this process:

1. May 31st (all applications received in May will receive a response by the end of August)
2. September 30th (all applications received in September will receive a response by the end of December)
3. January 31st (all applications received in January will receive a response by the end of May)

EYF Grants - Annual Work Plan Grant

The European Youth Foundation (EYF) is a fund established in 1972 by the Council of Europe to provide financial support for European youth activities. Its purpose is to encourage co-operation among young people in Europe by providing financial support to such European youth activities which serve the promotion of peace, understanding and co-operation in a spirit of respect for the Council of Europe's fundamental values such as human rights, democracy, tolerance and solidarity.

Within the strategic approach or global action plan of an organisation (what the organisation would like to achieve in the year(s) to come), you are asked to identify a coherent set of activities/elements to be submitted to the EYF. It should be in line with what you do and want to achieve, but it should also be in line with the work, priorities and principles of the youth sector of the Council of Europe.

Each activity/element should contribute to the aim of the work plan and the accomplishments of the work plan as a whole should contribute to the global purpose of the organisation. The work plan does not need to reflect the whole strategy of your NGO; it can be one element of it only.

The different activities of a work plan have to contribute to achieve the objective of the work plan as a whole and have to be interconnected.

It is useful to look at the "flow" of the various actions chronologically: individual activities are linked to each other, feed off and feed into each other (content-wise, through the participants and/or multipliers, towards one common result).

Material production or preparatory meetings should not be included as separate activities. They should be included in the activities they are contributing to.

The maximum grant allocated is €50 000. The grant awarded for an annual work plan is paid in three instalments: 60% when the signed contract is sent to the EYF by post and the conditions in the contract (if any) are met, 25% upon receipt of the interim report and the remaining 15% upon receipt of a satisfactory activity and financial report.

The following criteria are a requirement for annual work plans:

- Composed by several activities (international/other); at least one international activity;
- Clear flow/link between activities: interconnected;
- Each individual activity contributes to the overall objectives of the work plan;
- Link with priorities, missions and vision of the CoE youth sector;
- At least one third of co-funding for international activities;
- A gender perspective is taken into account throughout the whole process.

- Importance is also given to a non-formal education approach in your projects.

What kind of activities can be included?

International activities

A work plan cannot be a set of very small activities or material production only. A work plan needs to have a "European dimension" and this means it should still contain international activities (at least one).

Remember the criteria of international activities (see link): 4 nationalities represented in the team, a gender and geographical balance among participants (minimum of 7 nationalities).

You should find co-funding for the international activities. The EYF will not be able to cover more than two-thirds of the total cost of the international activities calculated together (i.e. the two-third rule will not apply to each separate international activity).

Other activities

"Other activities" can be included such as campaigns, study visits, series of workshops, "mobile" activities (activities which involve travel).

Examples of activities that can be included in a work plan as an "other" activity.

Preparatory meetings, research, needs analysis should be linked to an activity in the work plan, not an activity in itself. Material production should be the "result of" or part of the "follow up of" an activity and not an activity standing on its own.

Statutory or internal meetings (e.g. Board meetings, General Assemblies) cannot be included as separate activities in a work plan. These are covered by an EYF structural grant. If a statutory meeting takes place in conjunction with an activity supported by the EYF (e.g. a Board meeting directly after an international activity), this has to be clearly explained and the relevant costs must be separated.

Aim and objectives of an annual work plan

You will be asked to provide the objectives of each activity of the work plan and also the objectives and the aim of the work plan as a whole. The objectives of each individual activity should contribute to achieve the overall objectives of the work plan.

You need to show the relevance of the set of activities submitted to the EYF within the medium or longterm development of the organisation, but also show how this contributes to the priorities, mission and vision of the Council of Europe.

Gender perspective criteria included in all EYF grants

Special attention will be given to applications integrating a gender perspective. This should be clearly explained in the grant application. Gender perspective does not mean having an equal number of female and male participants. You should try to develop your project looking through different gender glasses,

taking into account the needs of young women and men. More information on gender mainstreaming www.coe.int/equality and our gender mainstreaming page developed having in mind youth NGOs.

Eligibility

Who can apply?

- International youth NGOs;
- International networks of youth NGOs.

EYF Grants - Structural Grants

The European Youth Foundation (EYF) is a fund established in 1972 by the Council of Europe to provide financial support for European youth activities. Its purpose is to encourage co-operation among young people in Europe by providing financial support to such European youth activities which serve the promotion of peace, understanding and co-operation in a spirit of respect for the Council of Europe's fundamental values such as human rights, democracy, tolerance and solidarity.

The EYF offers structural grants for general administrative costs incurred by youth NGOs.

Structural grants are for 2 consecutive years and are available every 2 years.

Structural grant for 2 consecutive years

These grants are available every 2 years (deadline 2019, 2021 and so on) and are only accessible to [international youth NGOs](#) and [international networks of youth NGOs](#) that have received support for at least 3 international activities during the 3 previous years (EYF grant or study session in the annual programme of the European Youth Centres). A structural grant needs to be confirmed after 1 year and is subject to specific eligibility and allocation criteria, which can be consulted in the link below. The grant is based on strategic long-term programme of the organisation.

The maximum grant allocated is €25 000 per year for 2 years (i.e. a maximum of €50 000 for 2 years).

The EYF budget available is approximately €750 000 for each of the two years.

How to Apply

Please note that granted international activities (EYF grants or study sessions) that, due to the Covid-19 pandemic have been cancelled, modified or postponed until after the 1 October 2021 application deadline, will be taken into consideration when determining the eligibility and distribution of Structural Grants for 2022 and 2023*.

EYF Grants - International Activity Grant

The European Youth Foundation (EYF) is a fund established in 1972 by the Council of Europe to provide financial support for European youth activities. Its purpose is to encourage co-operation among young people in Europe by providing financial support to such European youth activities which serve the promotion of peace, understanding and co-operation in a spirit of respect for the Council of Europe's fundamental values such as human rights, democracy, tolerance and solidarity.

What is International Activity?

International meeting of young people or youth leaders in Europe which contribute to the work of the youth sector of the Council of Europe in topic, methodology and with a clear European dimension.

- The following hard criteria are a requirement for an international activity:
- Participants must represent at least 7 Council of Europe member states*;
- It has to be run by an international team (4 nationalities represented in the project team);
- 75 % of participants under 30 years old;
- A gender and geographical balance must be ensured;
- A gender perspective is taken into account throughout the whole process.
- Importance is also given to a non-formal education approach in your projects.
- Until now, four working days were considered as a minimum duration for an international activity based on the principles of non-formal education/learning. However, in order to adapt to NGOs' needs, the EYF will no longer consider this duration as a hard criterion. Nevertheless, the EYF will continue to assess grant applications on the basis of their merit and the quality of the programme provided. NGOs applying for activities lasting less than four days will have to convince the EYF that the activity is based on a non-formal education approach.
- Statutory or internal meetings (e.g. Board meetings, General Assemblies) cannot be supported as a one-off international activity. These are covered by an EYF [structural grant](#). If a statutory meeting takes place in conjunction with an international activity supported by the EYF (e.g. a Board meeting directly after the activity), this has to be clearly explained and the relevant costs must be separated.
- The maximum grant allocated is €20 000. The EYF will cover up to two-thirds of the total real costs of the activity. NGOs need to find additional resources to cover the remaining one-third.
- Gender perspective criteria included in all EYF grants
