

# Welcome to Charleville Mall Library

Visiting the Library

A Social Story

This is what the entrance to the library looks like.

There are two sets of doors into the library.  
I can press a button to open the doors.

When I come in the door I can see the  
Library Desk.

The library staff can help me find some  
books to borrow.

This is the Junior Library. There are books, tables and chairs. I can sit and read here.

There are lots of great books I can borrow to take home.

Here is the Young Adult area.

This section has books for older readers from 12 to 15 years old.

Sometimes people study or do their homework in the library.

When I see people studying I should try to be quiet so the person studying can concentrate.

Sometimes the library can get noisy, but that is OK because I can always wear ear defenders.

I can use my own ear defenders or I can ask library staff for ear defenders.

This is a library card.

I can join the library for free and get a library card.

I can use this card to borrow books, DVDs, and audiobooks.

I can use the self-service machine to borrow books.

The machine will BEEP when it reads the card.

I can use the bathroom if I need to during my visit. I can find the bathroom beside the library desk.

Sometimes I will visit the Events Room for storytelling or to meet an author.

This room is quite big, with a high ceiling. Sometimes there can be an echo if someone makes a loud noise.

On my way out of the library I can use the button to open the doors.

Thank you for visiting Charleville Mall Library.  
We hope you enjoyed your visit. Please come  
again.
