Rethink Ireland - Breaking Barriers Fund

Rethink Ireland is partnering with the State Street Foundation, and the Department of Rural and Community Development on the three-year Breaking Barriers Fund to support projects or organisations that are working towards Equity in both education and the workplace in Ireland. The fund will support access-to-workplace initiatives, sustaining employment and educational initiatives, in support of the fact that educational attainment leads to better employment opportunities.

The Breaking Barriers Fund aims to support awardees that tackle discrimination and inequality in the Irish labour market and education system. The fund will achieve this through investments in innovative projects offering tailored solutions combating discrimination and inequality in the Irish labour market or education system with outcomes including (but not limited to); sustainable jobs, work placements & internships as well as training and education. The ultimate goal of the fund is to find and back change-making projects that support beneficiaries from the minority communities we have identified into sustainable employment, work placements, education or internships while also tackling discrimination, prejudice and inequality.

The fund will focus on projects which rise to the challenges captured in the following themes:

- **Addressing Discrimination and Inequality:** This includes tackling labour market discrimination and barriers to employment related to race, ethnicity, and nationality.
- **Increasing Participation and Access:** The fund aims to increase the participation of minority and disadvantaged groups in the labour market and facilitate better access to higher education, further education, and apprenticeships for those who face barriers (i.e through tailored employability programmes, holistic skills development courses, bespoke employment supports).
- **Eliminate Barriers:** This involves reducing both structural and practical barriers to employment, work placements, and educational opportunities for people/groups who face these barriers.
- **Supporting Career Development and Skills Growth:** The fund supports the career development and personal skills growth of employees/future employees who are under-represented at senior levels.
- **Systems Change Approach-Empowerment of Marginalised Communities:** The fund aims to empower leaders from marginalised and disadvantaged communities to self-advocate and champion their cause, strengthening networks and partnerships to challenge discriminatory practices and support systemic reforms that enhance access to decent work or education for the most marginalised communities.

NOTE: For theme 5 – A comprehensive systems change agenda is imperative to address the deeply rooted discrimination and inequality pervasive in Ireland’s societal fabric. This type of change necessitates collaborative efforts to reform policies, enhance enforcement mechanisms, and promote diversity in leadership roles. Therefore in this theme we are looking to support e.g alliances, projects that are led by two or more organisations applying together, or joint partnerships, or initiatives embracing a systems change approach (collaborating across sectors, engaging with multiple stakeholders, seeking to create sustainable and scalable impact by shifting how systems functions at a fundamental level).

The fund offers a package of cash grants and non-financial supports up to the value of €204,000 for up to 5 projects, to help them expand and increase their social impact.

This includes:

- Up to 5 awards of up to €189,000*
- The non-financial supports will include:
 - a place on Rethink Ireland’s Accelerator Programme
 - bespoke business and capacity building supports designed in consultation with the successful projects on topics such as strategic planning, maximising your impact, communications, storytelling and fundraising
- Access to Rethink Ireland’s networks

* The Rethink Ireland Board will decide how much money to award, which may be less than the amount requested. The final amount of the award will depend on how many organisations are selected.

- Promoting renewable energy in accordance with Directive (EU) 2018/2001, including the sustainability criteria set out therein (SO 2.2).

Priority 3 - Transition towards a place-based circular economy

- Promoting the transition to a circular and resource efficient economy (SO 2.6).

Priority 4 – Improving territorial resilience in NWE through innovative and smart transformation

- Developing and enhancing research and innovation capacities and the uptake of advanced technologies (SO 1.1).

Priority 5 – Transition towards a socially inclusive and resilient society

- Enhancing the effectiveness and inclusiveness of labour markets and access to quality employment through developing social infrastructure and promoting social economy(SO 4.1).
- Ensuring equal access to health care and fostering resilience of health systems,including primary care, and promoting the transition from institutional to family-and-community-based care (SO 4.5).
