

South Circular Road/ Brookfield Road Junction Upgrade Active Travel Scheme PUBLIC CONSULTATION

5th - 25th June 2025

WHAT'S IN THIS LEAFLET?

- 1 Project Overview
- 2 Benefits of the Scheme
- 3 Key Features
- 4 How to Contact Us

1 PROJECT OVERVIEW

Dublin City Council (DCC), with the support of the National Transport Authority (NTA), propose to upgrade the junction of South Circular Road and Brookfield Road. This junction is at the entrance to the new National Children's Hospital and St James' Hospital. The objective of the scheme is to improve the safety of pedestrians and cyclists through the junction.

This junction is part of the South City Loop scheme which is part of the 314km DCC Active Travel Network. When fully complete, it will provide 9km of high quality walking and cycling facilities linking Kilmainham to Ballsbridge. The proposed route will also link Rialto, Crumlin, Kimmage, Harolds Cross, Rathmines, Ranelagh and Donnybrook.

2 WHAT ARE THE BENEFITS OF THE SCHEME?

- Improve pedestrian access to and from St. James' Hospital and the new National Children's Hospital
- Enhance safety for pedestrians and cyclists
- Improve walking and cycling connections to the Kilmainham to Thomas Street Active Travel Scheme and Rialto Luas station at James' Walk
- Encourage increased levels of walking and cycling for hospital staff and visitors

The Active Travel Network will provide many benefits for you and your community including:

- Less pollution and carbon emissions
- Better physical and mental health and well-being
- More connected communities
- More pleasant environments
- Stimulated local business activity

3 KEY FEATURES

- **New pedestrian crossing** on the southern arm of the junction on South Circular Road, resulting in signalised pedestrian crossings on all three arms of the junction
- **Protected junction** separating pedestrians, cyclists and drivers
- **A kerb-separated southbound cycle track** from the entrance of the National Children's Hospital to Rialto Bridge
- New and improved **footpaths and road surfacing**
