

DUBLIN CITY COUNCIL

=====

ORDER OF THE EXECUTIVE MANAGER

ENVIRONMENT AND TRANSPORTATION DEPARTMENT

Re: Statutory Request for Permanent Traffic Management Measures on Pearse Street / Westland Row / Sandwith Street, Dublin 2 to facilitate recommendations approved under the Dublin City Transport Plan 2023.

Dublin City Council are implementing traffic management measures in Dublin City at locations on Westland Row, Pearse Street and Sandwith Street. The aim of these measures is to improve pedestrian, cyclist and public transport facilities.

The traffic management measures include amending the existing Pearse Street / Lombard Street East / Westland Row signalised junction and the Pearse Street / Sandwith Street Lower / Sandwith Street Upper signalised junction.

- Only Buses, Taxis and Cyclists can turn left onto Pearse Street from Westland Row.
- A new West to East Lane to be introduced on Pearse Street from the junction of Westland Row to the junction of Sandwith Street, therefore making this section of road 2 way.
- Vehicles can turn right onto Pearse Street from Westland Row
- Existing traffic measures and access from Lombard Street East and Sandwith Street Upper are maintained.

At the senior management team meeting on Monday the 12th May, the issue regarding Westland Row and the request to undertake these works under Section 38 was discussed and having considered the information regarding the EIA and AA screenings it was decided that Section 38 of the Road Traffic Act 1994 is the appropriate statutory route and that Section 95 of the Road Traffic Act 1961 as amended by Section 37 of the Road Traffic Act 1994, can be used to implement this measure.

The Executive Manager, Environment and Transportation Department is recommending the regulatory signage and road markings listed below be implemented in order to facilitate the enforcement of the new traffic layout on Pearse Street, Westland Row and Sandwith Street.

The statutory consultation procedure with the Garda Commissioner required under Section 95 of the Road Traffic Act 1961 as amended, was completed on the 20th May 2025.

Accordingly, I recommend that you approve of the implementation of the traffic management measures listed below:
