# Nassau Street Cycle Upgrade Project

## INFORMATION LEAFLET

**Cyclist Diversion 1:** Cyclist diversion via Molesworth St during first phase of construction works

**Cyclist Diversion 2:** Cyclist diversions via Stephen's Green or Liffey Cycle Route during second phase of construction works

The Nassau Street Cycle Upgrade project will see the upgrade of the existing 325m contra-flow cycle track between the Clare Street and Dawson Street junctions. The works will include the installation of red asphalt surfacing, cycle metre equipment, cycle friendly gully gratings and protective kerbing. The cycle track has been widened to allow for future two-way cycle traffic.

The works will be carried out by Cairn Construction (24-hour emergency contact: 087 235 0529).

Construction is planned for 03/11/2025 until 14/11/2025.

Our Road Maintenance Division will also be carrying out road surface renewal during this period. All traffic will be diverted during these nighttime works which will be carried out by Roadstone.
