

# Point Bridge & Tom Clarke Bridge Widening Project

## Active Travel Scheme Ground Investigation Works

Dublin City Council is currently at the preliminary design stage of the Point Pedestrian and Cycle Bridge Project. In order to examine the location of underground utilities, Dublin City Council (DCC) has appointed Causeway Geotech Ltd to carry out investigation works at selected locations on North Wall Quay and on the north side of the Tom Clarke Bridge.

These works will consist of slit trenches and are planned to take place during the week commencing **Monday, 18 May to Friday, 22 May 2026.**

Lane closures and stop/go traffic management systems will be required while the works are ongoing. Road users should therefore expect some delays in the area.

**Access will be maintained to all premises throughout the works.**

Updates will be provided on our scheme webpage. Scan QR or visit:
