9. Issues referred from the Public Participation Network Environmental Linkage Group Meeting held on 15th March 2016.
 - (i) Dublin Bay Tidal Flood Prevention Walls are not suitable at Clontarf and Sandymount. This is because of the prevalence of pluvial flooding at both of these sites. Previously the sea wall at Clontarf has had to be breached to release pluvial flood water. Demountable barriers are required at these sites rather than a sea wall. (Report attached)
 - (ii) Prioritisation of the orbital sewer within West Dublin. This is to avoid continued flooding at Ringsend caused by storm waters being directed into the frequently overloaded water treatment plant. (Report Attached)
