## Fire Safety Awareness

### Course overview

The Fire safety Awareness course is of 3hour duration and has been tailored to meet the requirements of the 1981 Fire services act for general staff. The course will take the students through a range of fire safety related topics covering emergency and non-emergency activities, which every staff member is required to aware of.

### Who should attend?

All staff members not already selected to form the fire marshal team.

### Objectives

To give the students the knowledge and skills required to recognise and maintain an environment safe from the hazards of fire. To identify classes of fire and deal with them effectively.

### Key learning outcomes:

At the end of this session the student will:

- Have a greater knowledge of fire and its associate dangers and effects.
- Will be able to Identify and understand the function of common fire safety features and eliminate bad practise related to them.
- Recognise potential fire hazards and take appropriate actions to rectify them.
- Recognise the different classes of fire and deal effectively with an outbreak.

### Duration

3 hours.

### Programme

- The mechanics of fire, smoke and dangerous gases.
- Fire extinguishers and hose reel equipment.
- First aid fire fighting.
- Incidents involving flammable liquids and gases.
- Storage of flammable liquids and gases.
- Common fire safety features.
- Means of escape.
- Hazard spotting and elimination of bad practices.
- Legislation.
